

# Expeditions in Ancient History:

# Ancient Civilizations

## This Module Includes:

“Ancient Civilizations” is a nine-week study that allows your family to explore ancient peoples in Mesopotamia, Egypt, the Levant, and the Mediterranean. Students will discover the landmarks

and megaliths, temples and palaces they left behind, and get to know the rulers who really made things happen in the ancient world. They’ll find out who established ancient world justice, what kingdom set about colonizing the Mediterranean long before the Romans thought about it, and whose leaders prided themselves in their ruthless reputations.

The module includes an easy-to-follow schedule that integrates great reading, website links, DVD suggestions, and intriguing activities that will get kids excited about the technology used in ancient times, as well as digging into archaeological assignments. It also includes amazing, interactive journaling pages that allow your student to create an Ancient Chronicle. The pages allow kids to show what they’ve learned in fun ways, and contain content that adds even more to your study. The pages focus on major civilizations significant battles, mapping, the lives of people in various city-states, and ancient technology, trade, and weapons.

**This module is 244 pages in length and is designed to be used in 9 weeks.**
