

# A Science Study Seven Days of Creation

## What's in This Module?

“Seven Days of Creation” is a six-week science study that takes a look at what God created on each day of Creation week. The module includes schedule pages for each of the six weeks that schedule daily assignments, help you understand how to use your notebooking pages, provide activity helps, and include website links. The study is set up on a 2-day schedule.

The journaling pages included in this study make it SO easy to complete your science study! The pages include rich content to read and discuss, interactive journaling pages to fill out, and easy, practical activities and experiments that help students make new discoveries of their own. It's all designed to

be open and go, and the activities require only the simplest of household or paper supplies.

***This module is 67 pages in length and is designed to be used in 6 weeks.***
